Last time on Metal Heart

It was friend versus friend in an epic battle of love and cosplay. In Hyuk and Fairy knocked the competition to the wayside, and in a last-ditch effort to win, Min Woo and Sia trade costumes. Then suddenly, a huge metal golem interrupts the contest! To protect their knight, Sia and Fairy must work together to defeat this new threat. Will we discover who's behind this metal monstrosity? Why is it targeting Min Woo? Can our hero over-come these obstacles, or will he never see a happy ending?
